## What makes the Ranger8000 and 13000 Diesel Generators a better choice?

Eniquest Ranger8000 and 13000 diesel generators are manufactured in Queensland using locally sourced components. It is the quietest, most fuel efficient and robust diesel generator available and has been developed specifically for reliable commercial and domestic power and solar backup. With a focus on ease of maintenance, the modular construction offers complete access to all components and this is backed up by a complete stock of spares if ever required.

“At Eniquest, we believe that any diesel generator needs to be as reliable and durable as our military products. Our Ranger8000 and 13000 is all of this and more”
